

Service of Registering a Request for

Transporting and Preparing Deceased

Logging into the System

1) After accessing the system link, the following screen will appear, where the user enters their details (National ID/Iqama Number, Password) and then clicks the (Login) button.

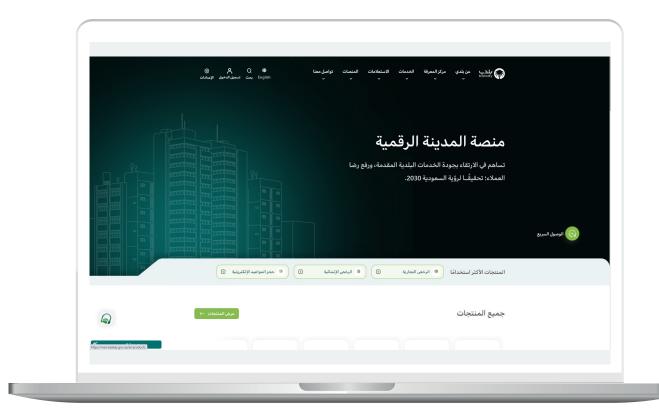

2) A verification code will then be sent to the user's mobile phone, which they need to enter in the (Verification Code) field and click the (Login) button, as shown in the following screenshot.

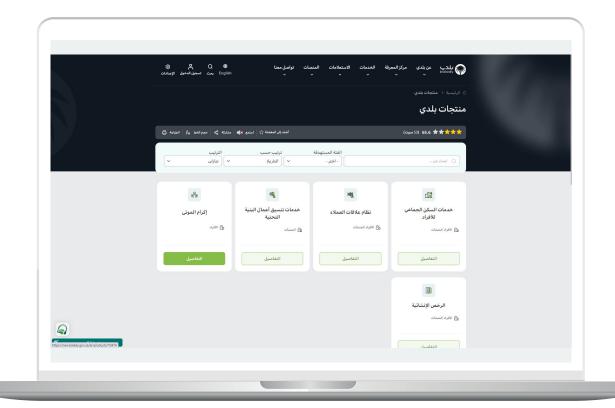

3) Once logged into the Balady platform, the platform's main screen will appear, as shown in the screenshot below.

The user then clicks the (Viw Products) button.

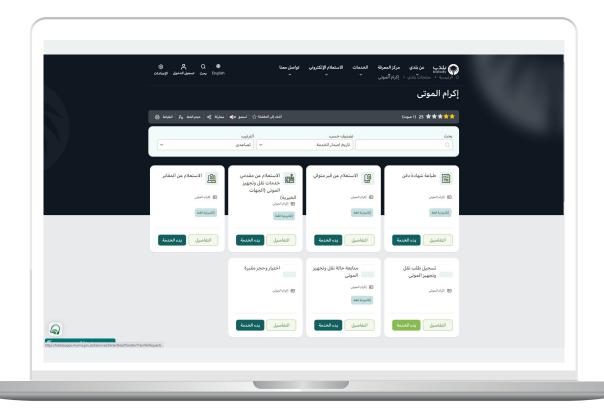

Steps to Request the Service

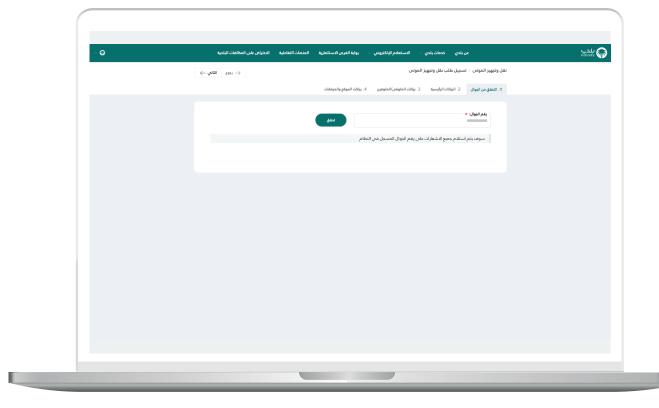

1) To begin the service request, select (Honoring the Deceased) as shown below.

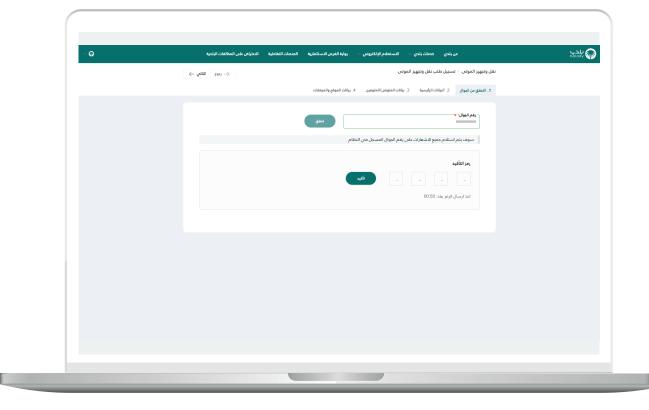

2) A screen appears displaying the services provided for honoring the deceased. Select (Register a Request for Transporting and Preparing the Deceased) as shown below.

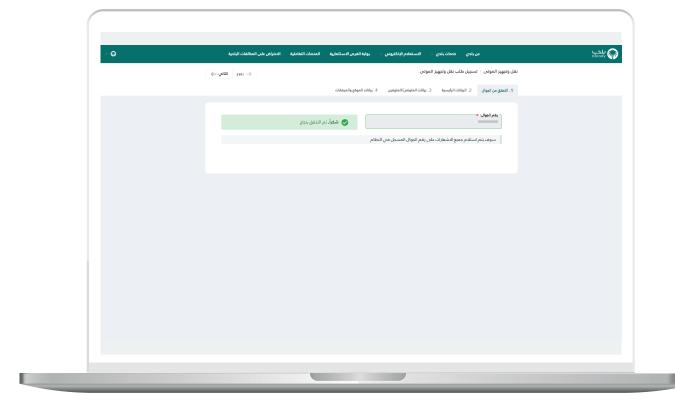

3) The following screen appears, where the user's mobile number is verified by entering the value in the (Mobile Number) field and clicking (Verify).

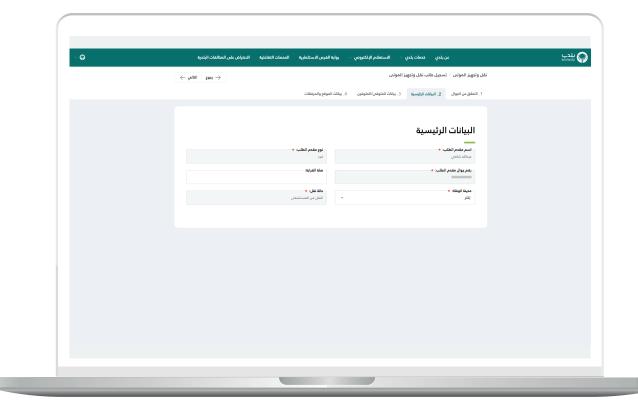

4) A confirmation code is then sent to the user's mobile. Enter the code in the (Confirmation Code) field and click (Confirm).

5) Once verification is successful, a confirmation message appears. The user then clicks (Next).

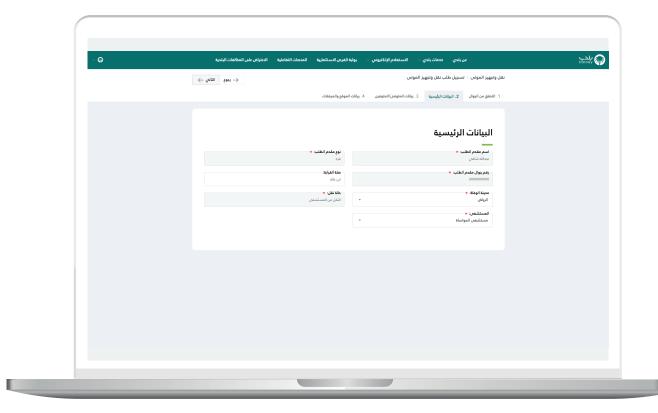

6) The user is directed to the (Main Data) stage, where the required fields and dropdown lists are completed.

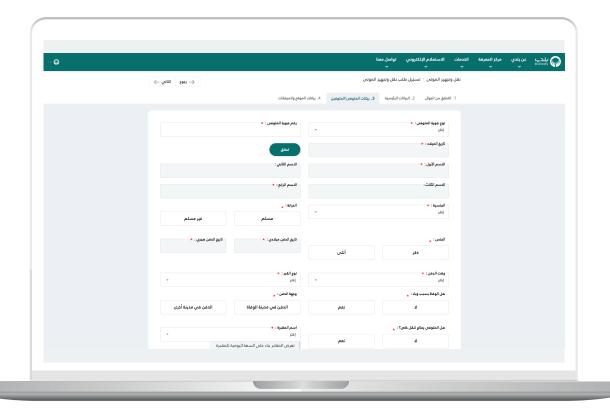

7) After selecting a value from the (**City of Death**) dropdown list, a new dropdown menu appears labeled (**Hospital**), where the user selects the appropriate option.

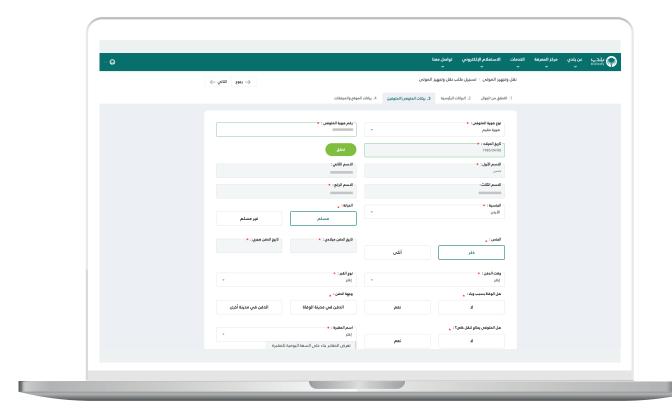

The user then clicks (Next).

8) The user is directed to the (**Deceased Information**) stage, where a value is selected from the (**Deceased Identity Type**) dropdown list, the (**Deceased Identity Number**) field is completed, and the (**Verify**) button is clicked.

9) The retrieved data is then displayed as shown below.

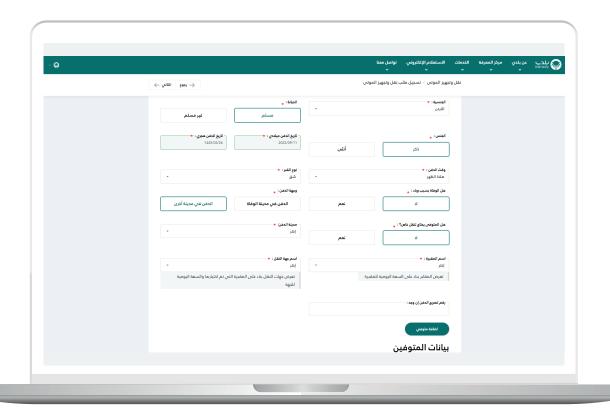

10) The user selects values for the following fields: (Burial Date - Gregorian), (Burial Date - Hijri) from the electronic calendar, (Burial Time), and (Grave Type) from the dropdown lists.

The following questions are answered: (Is the death due to an epidemic?) and (Does the deceased require special transport?).

If (Yes) is selected for (Does the deceased require special transport?), a new dropdown menu appears labeled (Reason for Special Transport), where the user selects the appropriate option.

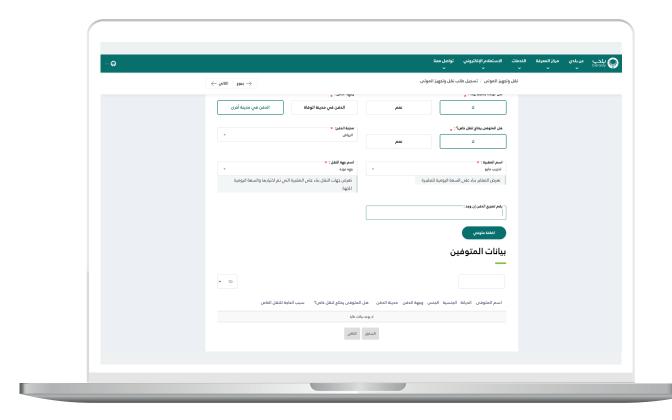

If (Burial in Another City) is selected, a new dropdown menu labeled (Burial City) appears.

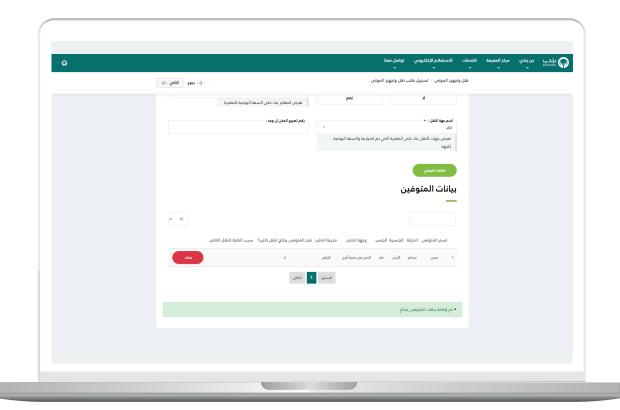

11) The user selects a value from the (**Cemetery Name**) dropdown list and chooses (**Transport Entity Name**).

If a burial permit exists, its value is entered in the (Burial Permit Number, if available) field.

After completing the entries, the user clicks (Add Deceased).

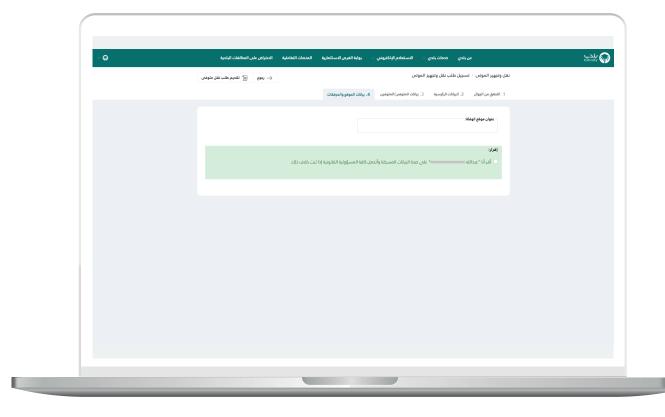

12) The deceased's details are successfully added, and a confirmation message appears. The user then clicks (Next).

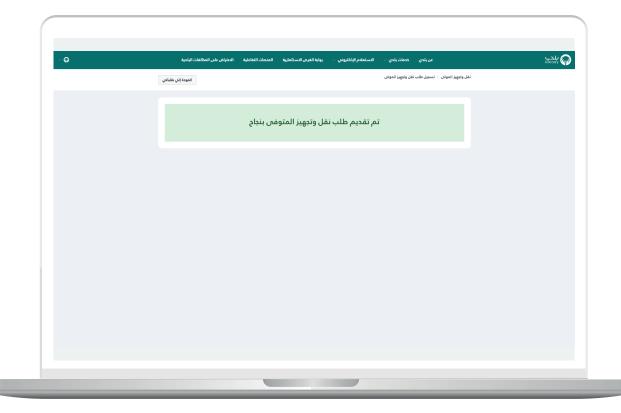

13) The user is directed to the (Location and Attachments) stage, where the (Death Location Address) field can be optionally completed.

he user agrees to the acknowledgment and clicks (Submit Deceased Transport Request).

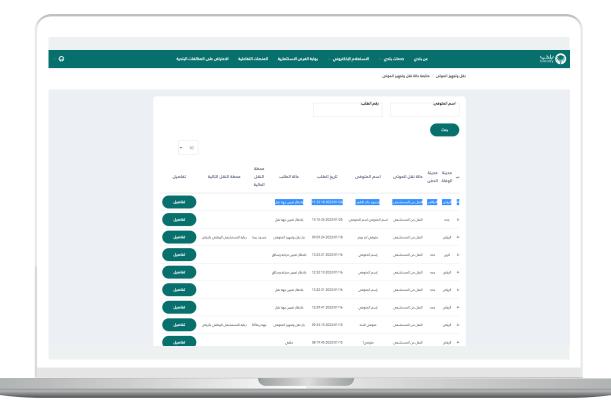

14) The transport request is successfully submitted, and a confirmation message appears.

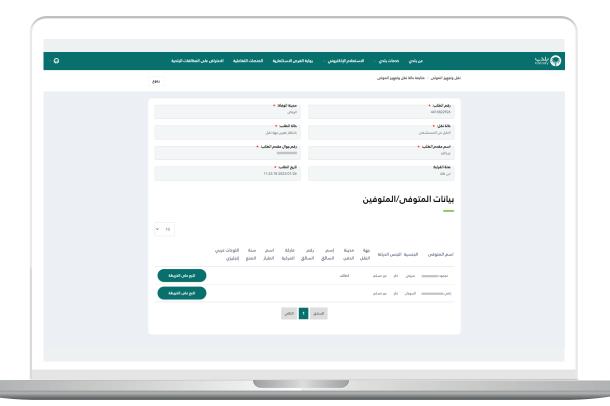

he user can navigate to the (My Requests) screen to track the request by clicking (Back to My Requests).

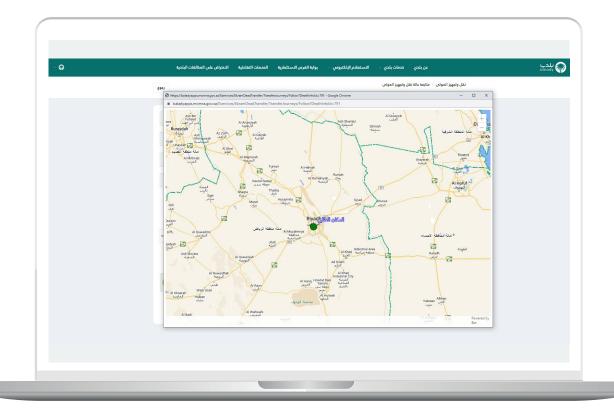

15) The user is then directed to the (Track Deceased Transport and Preparation Status) screen, where the new request appears. The (Details) button can be used to view the request details.

16) Clicking (**Details**) displays the request details as shown below, allowing the user to view the map by clicking (**Track on Map**).

17) Clicking (Track on Map) displays a map showing the current location.
